

Our Values

We believe in education for girls, equality, and open and transparent working.

MISSION STATEMENT

To advance the education of young women and girls in North Malawi in secondary schools operated by the Synod of Livingstonia, Church of Central Africa Presbyterian (CCAP), and other educational institutions.

VALUES

- We believe in the importance of education for all and recognise that girls and women are disadvantaged in their access to education in many parts of the world.
- We believe that supporting girls' education is a key factor in the development of a Nation and our mission is to work towards that in North Malawi.
- We believe in the importance of equality of opportunity for our staff and volunteers and we work to that principle in all our professional dealings.
- We believe in the importance of diversity of age, background, beliefs, ability, educational level, ethnicity and gender sexual orientation in our beneficiaries, staff group, Board and volunteers.
- We honour the beliefs of our colleagues and our partners, while acknowledging that they may differ from our own.
- We are committed to inter-cultural exchange and understanding.
- We aspire to working in an open and transparent manner which allows public scrutiny of our activities and processes both in Scotland and Malawi.

Agreed by the Board of Trustees: 15th March 2020
